

WEDDING TRANSPORT

The journey to your wedding venue will be one of the most memorable of your life; hence you should take care that it should be done with great style. Enter the wedding venue with a splash that the guests would remember for a long time. Choose from an exciting range of transportation options such as a vintage car, a limousine, to a flashy sports car or even a traditional Indian wedding horse.

Wedding Transport is needed not just for the groom but for the entire wedding entourage as well. Generally, the while the groom is escorted to the venue for the wedding venue through a special car sent by the bride's family, the rest of the groom's family generally follows in a bus. Or if you want a traditional barat ceremony, then the mode of transport will be the decked up ghodi (white mare) for the groom while the wedding entourage would follow on foot, dancing all the way.

PWP will arrange for all your transportation needs. We have excellent tie -ups with car and bus rental companies. We would also arrange for a beautiful ghuri along with the band party. For out-of-station weddings or specialized destination weddings, we would take care of all your travel arrangements such as ticket and hotel bookings, providing cars at the railway stations and airports for the entire wedding entourage.
