

PHOTOGRAPHY AND VIDEOGRAPHY

Wedding is an important occasion where the dearest and nearest will join to make the special moment into a memorable one. So many times we hear from couples "I wish I had a videographer" or "The day went by so fast, I wish I had the whole day documented." Photos and video are the only things that you will have from the wedding. Too many times, people wish they had more documentation of their wedding day. You cannot go back, so why would you not have your day documented with both photo and video? Be able to re-live every moment and pass your wedding memories on to your kids. They will follow the couples when they mingle with their family and friends to capture the special pleasurable and emotional moments as they develop. We help you to treasure the memories for years to come.

Photography captures the moment & video captures the emotion. PWP arrange to capture the unforgettable moments, which cannot be recreated, professionally in videos and photos.

WEDDING INVITATIONS

The purpose of a wedding invitation is to let your friends and family know you want them to be with you on your very important day. The invitation should be all about the guest and how it would honor you to have them there. The details of your wedding invitation are your guests' first impression of the event and show you are thinking of them and want them to have fun and enjoy themselves. Present day wedding invitations have become informal, lively, charming and carry a surprise element. Beyond that traditional invite, people are looking for small changes to make a big impact.

PWP assists you in printing the marriage invites. We take special care in integrating the selected wedding theme into the color and design of the invitation. We help you to choose the right paper; print color and custom make logos and designs that go well with the preferred theme.

We take special care in printing invitation cards for those who generally live, employed or studied in another country. In such cases we involve them in the design idea and in printing the invite.
