

VENUE SELECTION

Choosing a perfect marriage venue plays an important role in a wedding. Once engaged, a couple then needs to focus on their wedding. Family and friends will ask about the location and date of the wedding. It can be difficult to decide where the wedding should be held, especially if you don't know where to begin.

PWP always gives more importance to the sentiments of the parents in booking a wedding hall. We ultimately leave the choice of booking the hall to the parents.

These 3 tips will assist you in selecting a wedding venue:

1. Identify your needs.
2. Determine the types of services needed.
3. Choose the theme and style of the wedding.

In the case of theme weddings, we suggest you the best wedding halls in Varanasi and other places that can offer an influencing surrounding to match the chosen theme. We always suggest the parents to arrange booking the halls at least six months in advance to enable choosing a better venue.

We gladly take the responsibility to book a perfect marriage hall and conduct the marriage. Your wedding should be organized and well planned for your special day.

PERFORMANCES & ENTERTAINMENT

Every wedding is different, and each celebration has different requirements. Depending on the style of wedding that you plan of having, hiring a DJ to service your entertainment needs can be a fantastic choice. As opposed to a band or a musician, a DJ can offer a very cost effective resolution. Apart from a disc jockey being the cheaper option, they have the capacity to procure a more diverse music library, cater to more genres and tastes than live entertainment.

Presently a well-arranged marriage is complete only with a musical performance or soft music during the reception. The wedding receptions arranged currently avail the services of DJs to meet the music or entertainment need. Furthermore, music troupes or solo singers are hired to provide the entertainment.

Entertainment (folk dance, fireworks, puppet show, fire acrobat, snake charmers, Music DJ, live music, wedding serenading etc. to create regal wedding experience).PWP with its well established contacts will help you in choosing the right type of entertainment for the reception or for the other occasions during the marriage.
